

Importing E00 files into ArcView 3.x

Related Guides:

- Importing E00 files into ArcGIS 8.x
- Importing E00 files into ArcGIS 9.x

Requirements:

- ArcView
- E00 file

Procedure:

- 1. Open Import71 (from Start/Programs/ESRI/ArcView 3.x/Import 71)
- 2. In the dialogue box under Export Filename browse to the location of the E00 file.
- 3. In the dialogue box under "Output Data Source" enter the location where you want to save your data. Do not put an extension on the filename.
- 4. Click OK

NOTE: Neither the original file name, nor the output data source can contain spaces in the path
