Flexibility

Schedule

Social

Needs

Other points to consider

Be even more clear about expectations. Be realistic. Make deliverables manageable.

Be understanding about decreased productivity. At this point some trainees may be 'back to normal' but others are still experiencing impacts.

Create collaborative workspaces that include a combination of science and social.

Checkin and "be present". Students need your support.

Take care of yourself.

Your health and wellness directly impacts your students.

SYMPOSIUM

24-27 NOVEMBER 2020

Webinar II: Virtual Supervisor v.2.0

Wednesday, 25 November 2020 @ 1-2pm EST

SHARE

1. Your biggest success/innovation with remote supervision.
2. A “failure”
3. A challenge/opportunity – what are you struggling with?
