QUALIFYIN@OURSE\$ORTHE DEAN'S MULTIDISCIPLINARY UND ERGRADUATE RESEARCH LIST

Members of the Academic Committee are invited to consider the list of courses that qualify for

In exceptional circumstances, if students have taken a science research course *not* already on the approved list, and wish for this course to be counted toward the Dean's Multidisciplinary Undergraduate Research List, they must apply. A qualifying course involves a science research project as its primary focus, culminating in a substantive written report. Ineligible courses include: reading courses; BASC 396 and BASC 449; and courses offered by the Faculty of Arts. For information on how to apply, students should contact the Office for Undergraduate Research in Science at least 4 months prior to graduation (e.g., February 1, for June graduation; July 1, for November graduation; August 1, for February graduation).

 $\underline{490}$ was reading-or-research, and is now reading-only, but remains on the list for students who took it as research in prior years.)
